

## PRESS RELEASE

Wednesday, August 31, 2022

# Distribution of native trees to residents of Beaubassin-est

On Thursday September 29, Beaubassin-est will distribute 152 native trees to its residents (one tree per family). You must be a Beaubassin-est resident to receive a tree and you must reserve your tree by contacting our office, either by email at [pete.belliveau@beaubassinest.ca](mailto:pete.belliveau@beaubassinest.ca) or by telephone at 506-532-0730. There will be 76 red maples (4'-5') and 76 red oaks (2'-3') distributed.

You can pick up your tree on Thursday September 29 between 8:00 a.m. and 4:00 p.m. at the municipal building located at 1709 Route 133 in Grand-Barachois. In addition to a free tree to plant in your yard, you will receive a guide to native trees of the Acadian Forest that shows the steps to follow to plant a tree correctly.

This is an activity organized as part of the EcoVision2025 Strategy, in collaboration with Vision H2O and the Shediac Bay Watershed Association. The initiative aims to promote the planting of native trees in order to contribute to the quality of the environment in our communities. The Village of Cap-Pelé and the Town of Shediac will also offer trees to their residents.
