Mushroom Creation Workshop for the Arts en Fête

In partnership with the Sud-Acadie Cultural Society, Beaubassin-est invites young people to a Mushroom Creation Workshop on Wednesday, August 11 from 1 p.m. to 3 p.m. at the Grand-Barachois Golden Age Center. With artist Amber Leger, the children will create colorful mushrooms with umbrellas and their artwork will be part of the grouping of Mushrooms for Les Arts en Fête at the end of August. It's free, all the material will be provided, and the artist has already developed a creation project and she will guide the kids with their artworks.

Les Arts en Fête resumes its mandate in 2021 and aims to create a piece of public art with the community on an ecological and environmental theme, under the theme of the Mushroom. The Sud-Acadie Cultural Society invites the general public and young people from the region to create one or more mushrooms and we thought it would be a good opportunity to organize this free workshop in order to produce an artwork designed by the young people of Beaubassin-est, which will be exhibited on the Barachois Historic Church greenery from late August until October.

To register for this free activity, call 532-0730, send an email to emilie.leblanc@beaubassinest.ca or send a message through our Facebook page. You will need to provide the child's name, age, phone number, and permission to have their picture taken. The workshop is aimed at children between the ages of six and twelve and a maximum of 20 registrations will be accepted.
