Maintenance of the Grand-Barachois Trail during winter

The municipality has undertaken a pilot project to maintain the Grand-Barachois Trail so that people can use it during the winter. So, a maximum of five days after the storms, the trail will be compacted from the Grand-Barachois Golden Age Club to the footbridge, in addition to St-Henri Road.

People will therefore be able to go there for walking, cross-country skiing, snowshoeing or cycling ("fat bike"). And you must respect the instructions of Public health when you go in a public trail. If you are sick, stay home. Practice physical distancing and bring a mask. Avoid touching surfaces and wash your hands.
