Children's activity offered by Vision H₂O

Beaubassin-est is launching a new youth program for the summer of 2022. With the staff, the students have developed various activities that will please everyone. In partnership with Vision H₂O, an educational activity at the Cormier-Village Cultural and Sports Center will be offered on Tuesday July 26, between 1 p.m. and 3 p.m.

Vision H₂O works to raise public awareness of the importance of maintaining a healthy ecosystem in our community. During the July 26 event, the kids will have the chance to play games to recognize the importance of pollinators. They will also have the chance to learn about the life cycle of monarch butterflies and see two stages of this cycle, larvae (caterpillars) and pupae. The activity will end with a craft.

To register, please call the Beaubassin-est Rural Community office at 532-0730, send an email to emilie.leblanc@beaubassinest.ca or send us a message through our Facebook page. You will be asked to provide us with the child's first and last name, the name of the parent or guardian, their age, a list of allergies, a telephone number and permission to have their picture taken. Only children between the ages of six and twelve can register and a maximum of twenty registrations will be accepted.
